Discord Guidelines

We use Discord to facilitate raid instructions. Everyone is expected to login to Discord during raids with at least the ability to listen. If you have a microphone, please use push-to-talk functionality to avoid "hot mic" situations where ambient noise or feedback impinges.

Please limit communication to event-related comments and leave the channel open for leadership to give instructions. Verbal abuse is not permitted. Bullying and harassment will not be tolerated. Gross-out jokes and comments are also not permitted during raids.

Keep it PG, some people may have children in the room listening to their speakers.
